

Stock Take Update

Winterbourne View Programme Board
25th July 2013

Winterbourne View Improvement Programme

Ian Winter - Tim Hind

The Stock Take

- Purpose:

To gather detailed and comprehensive information across health and local government about progress, good practice and support needed to achieve the changes required to meet key Concordat commitments.

What's Happened So Far

- Stock take sent to LA Chief Executives, CCG, NHS, NHS, HWBB and widely circulated to other stakeholders on 1st June 2013
- Range of discussion/development sessions with stakeholders
- FAQs put on LGA website
- Explanatory notes for each section posted on LGA website
- 47 individual questions/queries responded to, all within 24 hours
- One return outstanding

National Stock Take - Interim Reporting

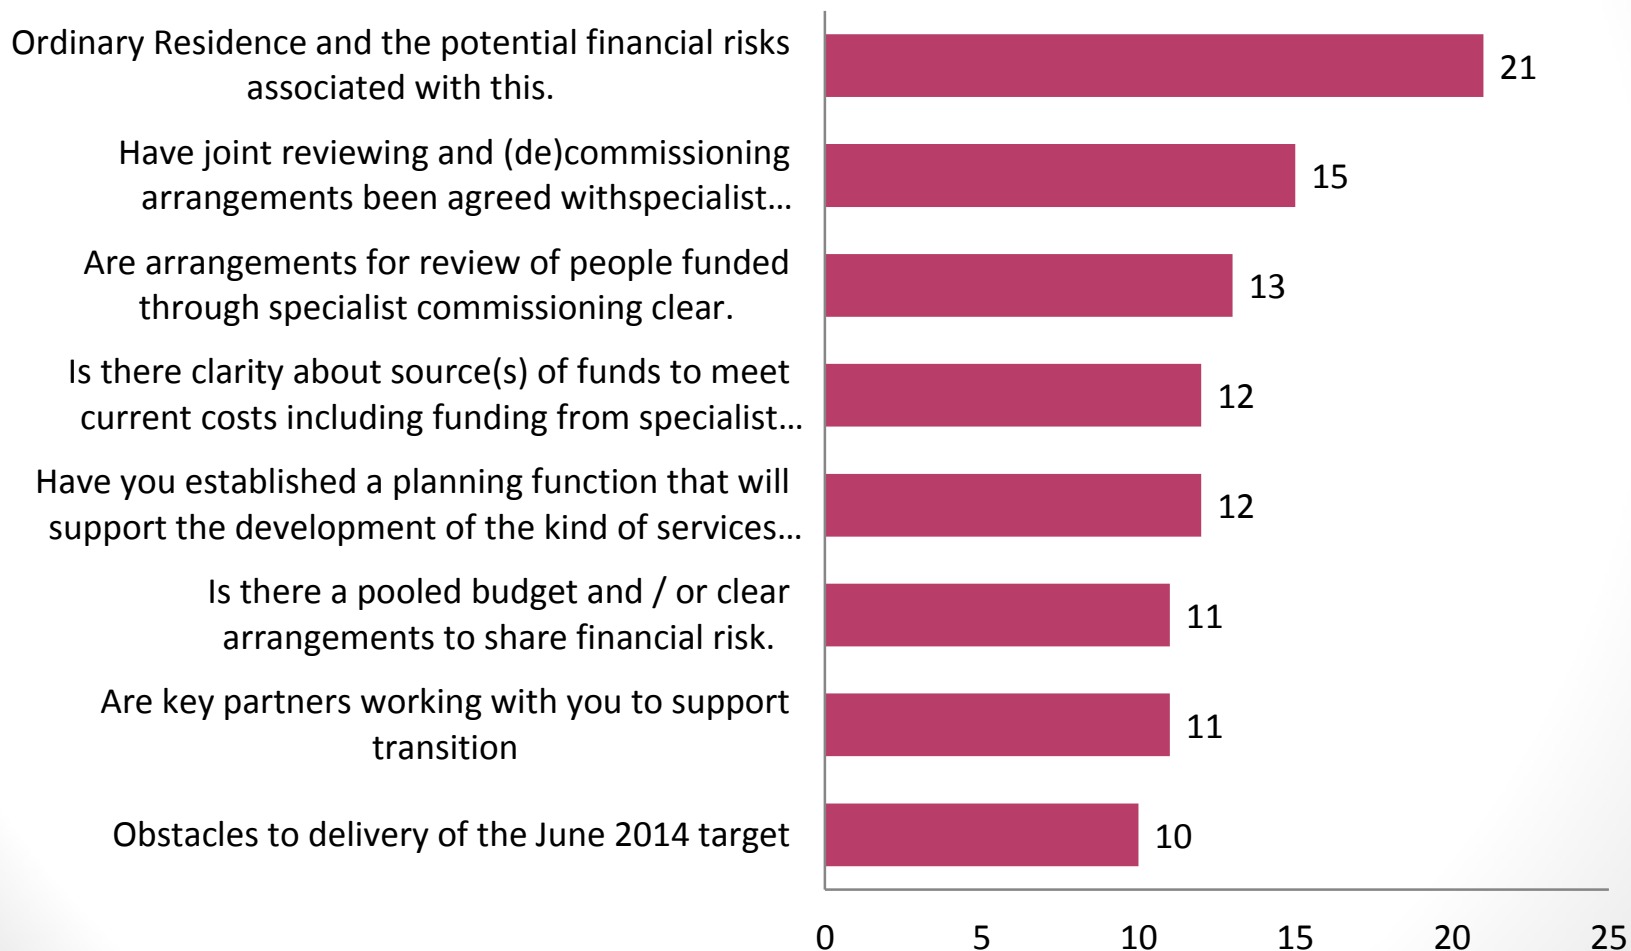

- What has been done
 - Initial coding of 130 returns
 - Identifying “headlines” and themes
 - Key areas for support
- In progress
 - Double check on coding issues arising – e.g. where responses not clear
 - Incorporate final returns (i.e. not yet coded = 16)
 - Finalise framework for stage 2 analysis
- Stage 2 analysis by September

Support

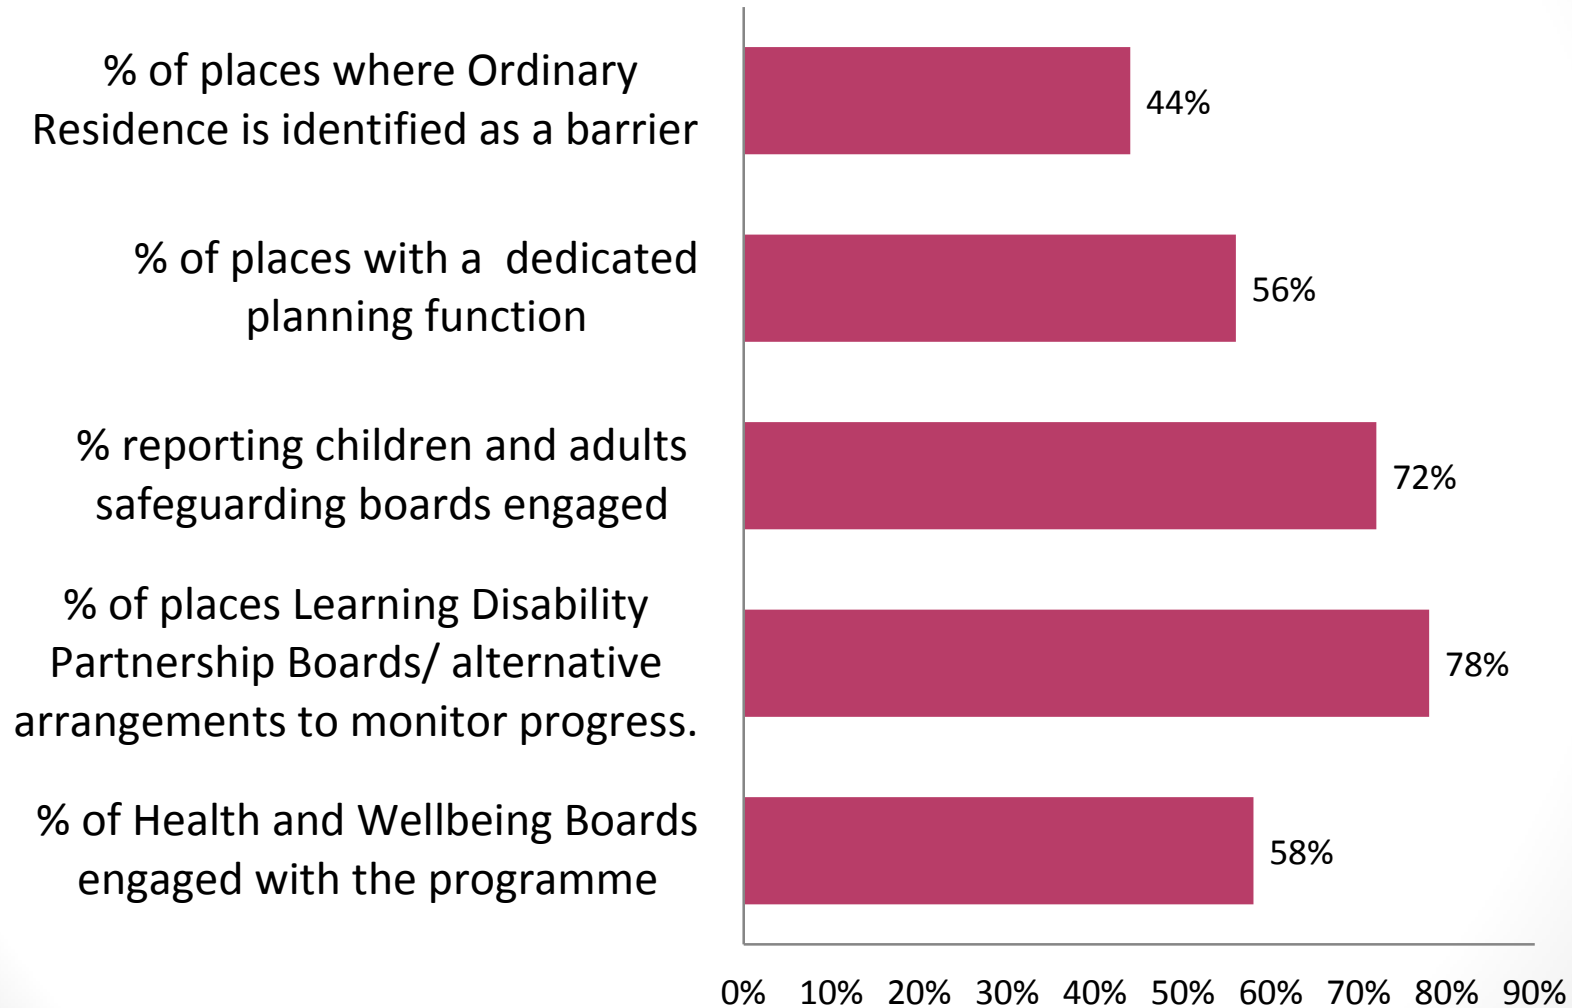

- 75 localities (of the 130 coded) have indicated at least one area where support would be helpful
- None of the questions (so far) have a zero return
- In total 349 requests for support are indicated
- The top issue is Ordinary Residence and associated financial risks

Number of areas indicating where support will be helpful

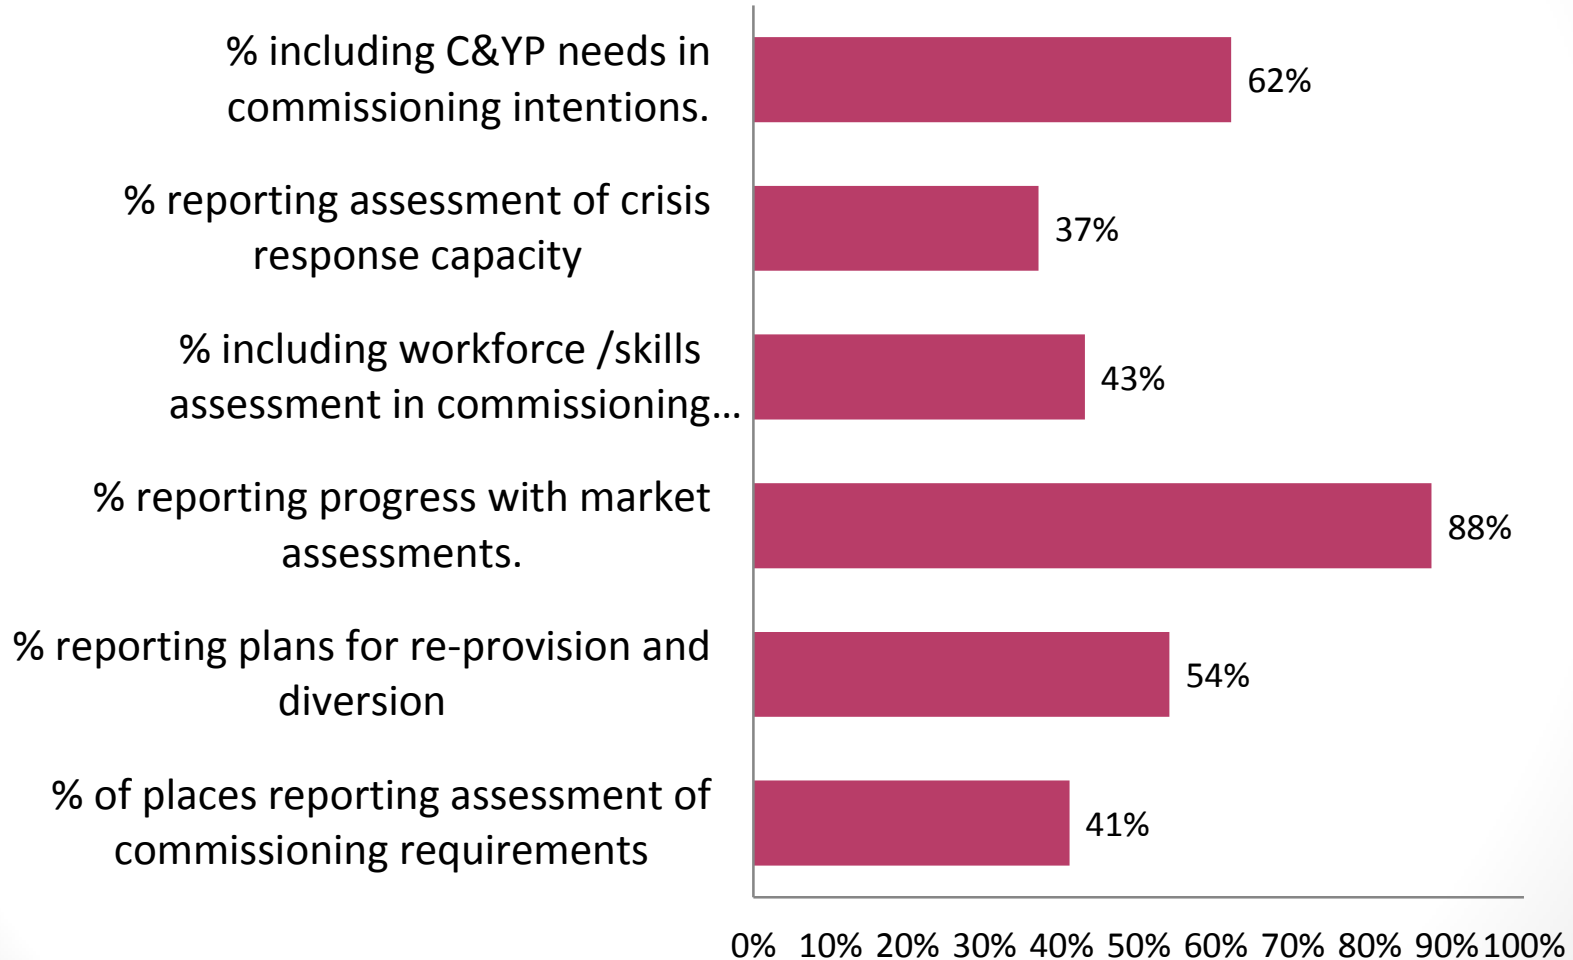

Number of areas indicating where support will be helpful

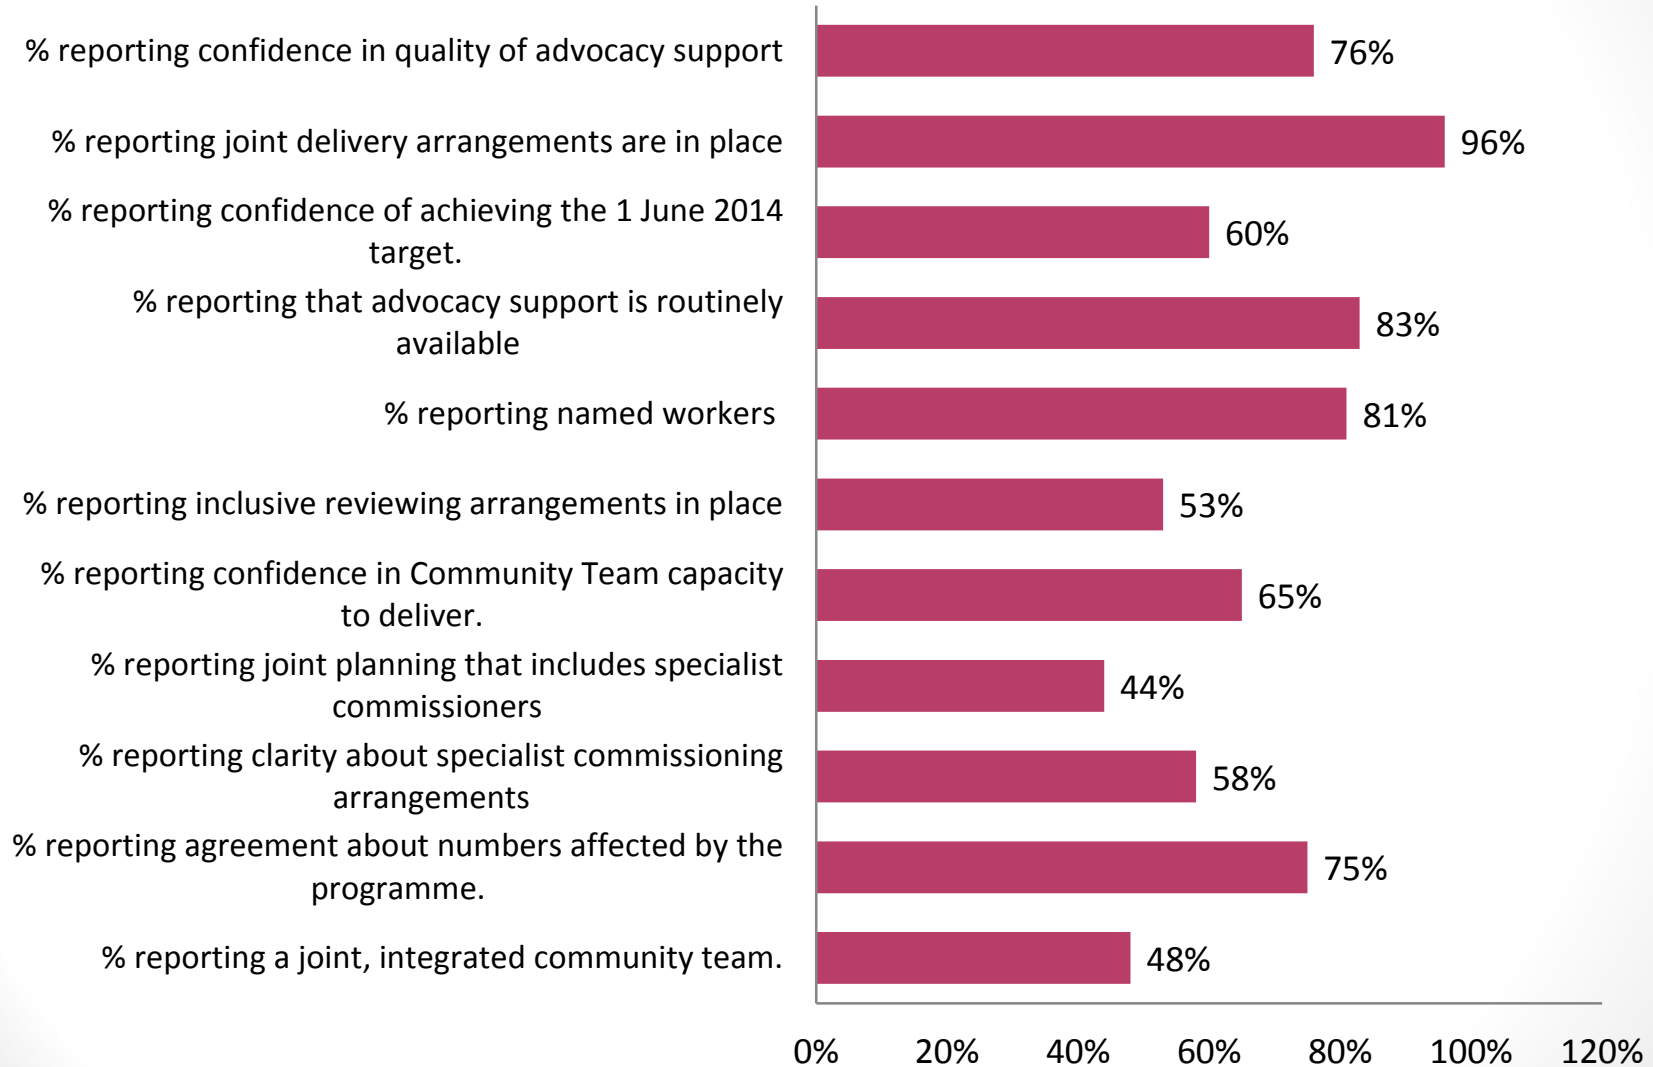

National Reporting - Leadership across the system

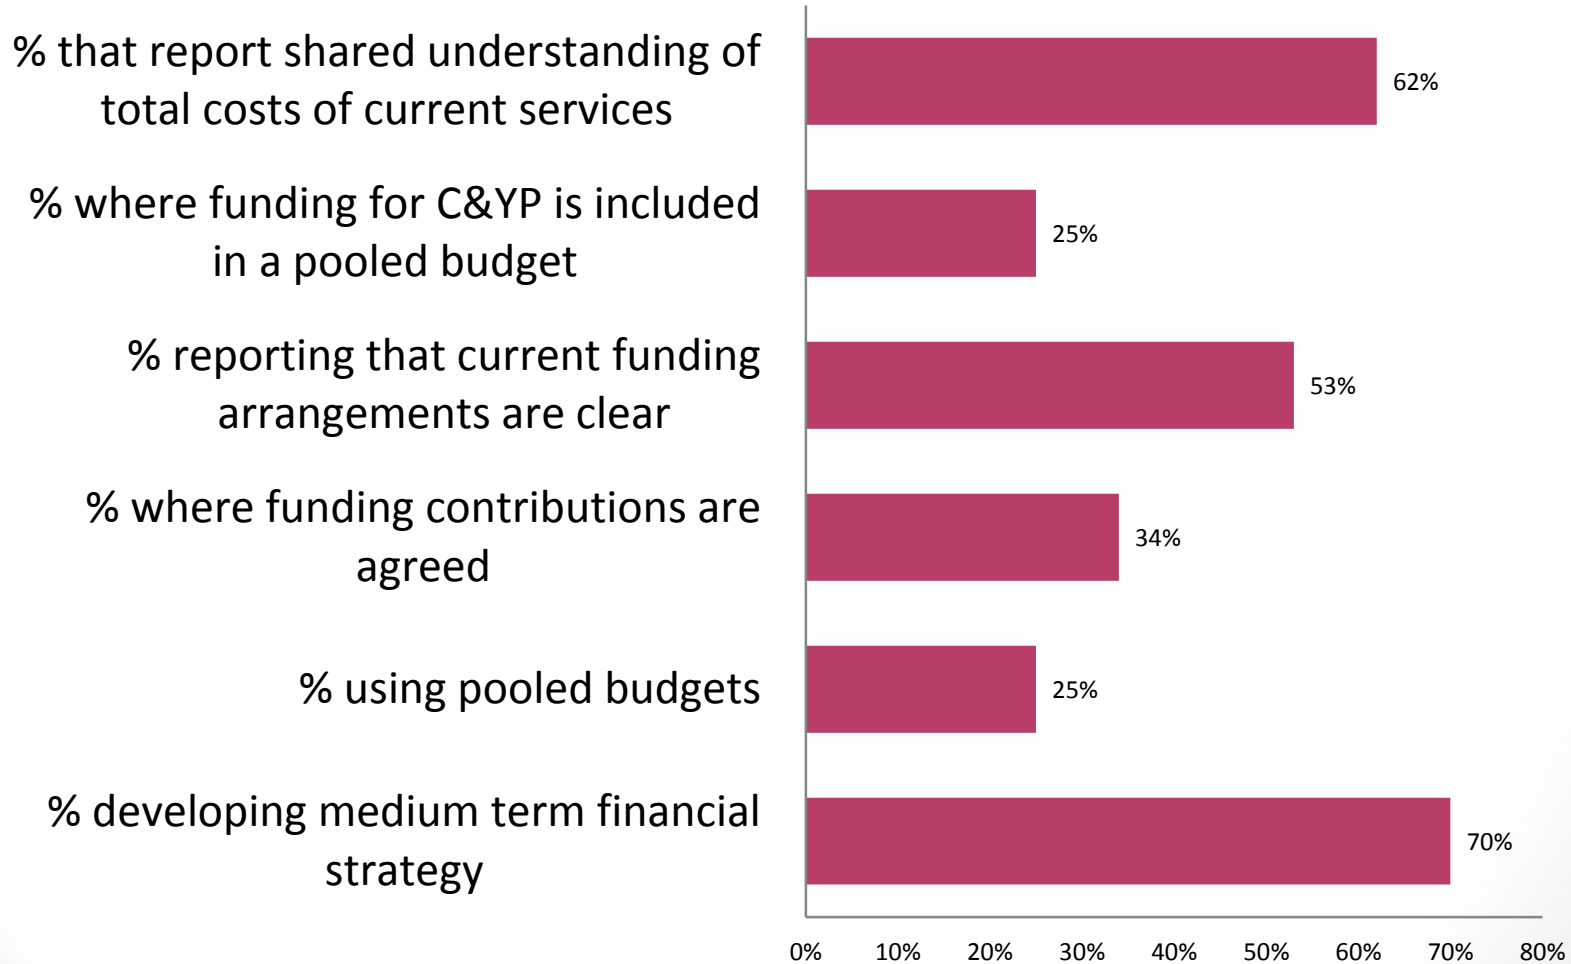

National Reporting - Strategic Capacity

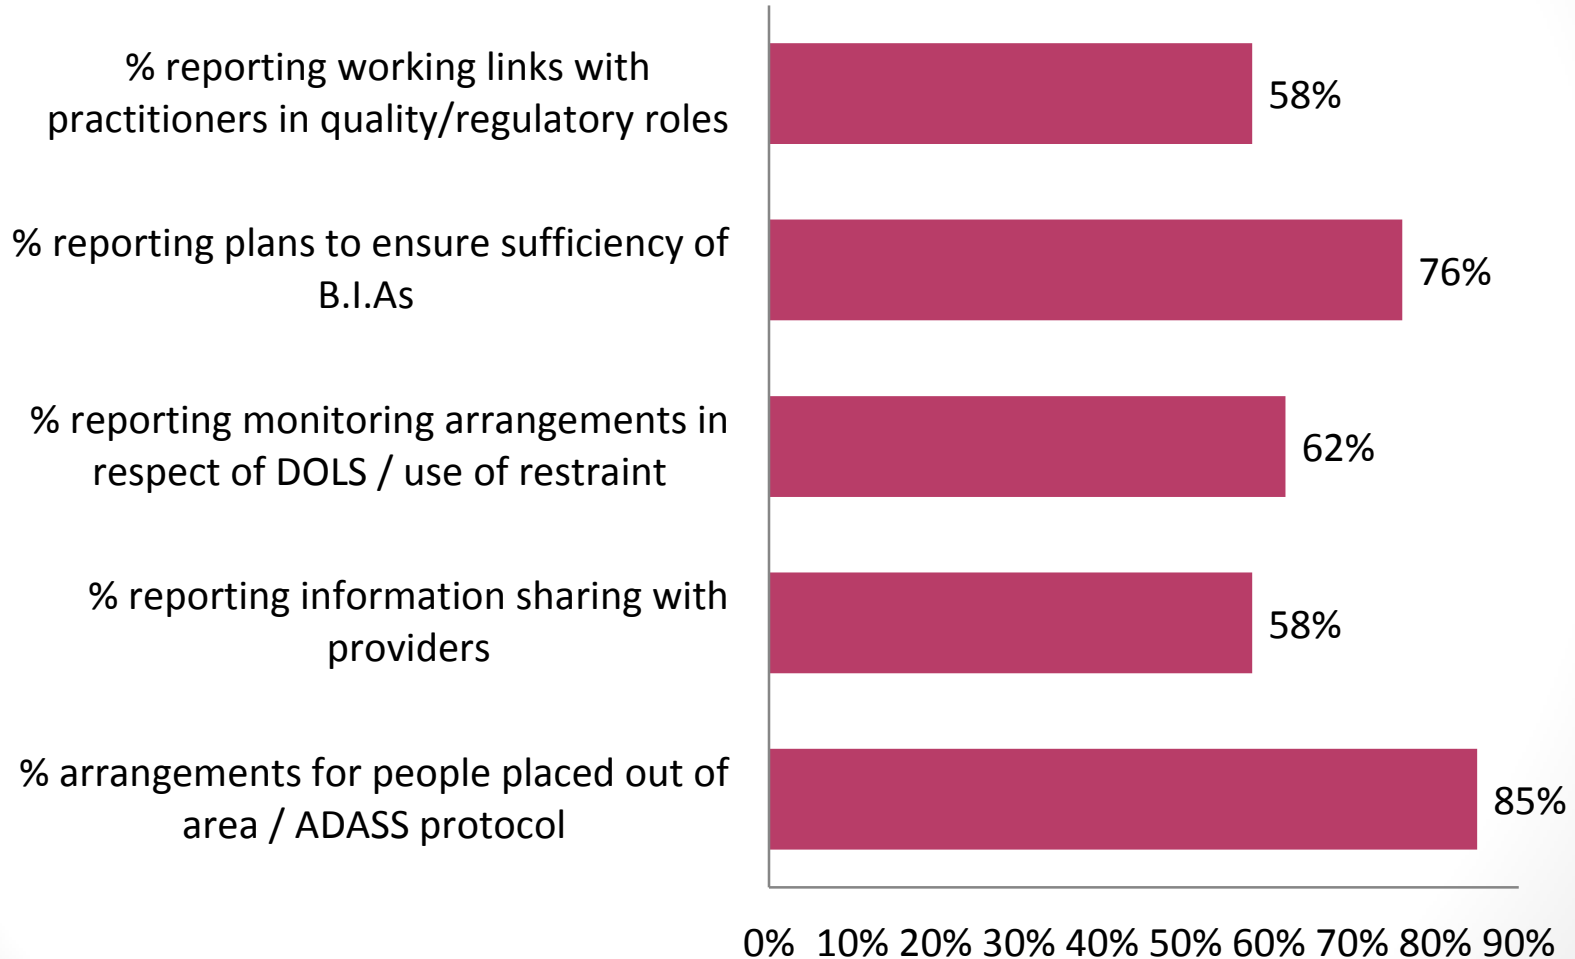

National Reporting - Delivery and progress
