

Commissioning for Better Outcomes – a route map

ADASS /SCIE event – January 9th

Sandie Keene

Context – the Care Act

- Promotion of health and wellbeing and provision of preventative services
- The duty to carry out care and support functions with the aim of integrating services
- Access to independent advocacy
- A new duty to promote diversity and quality in the market of care and support providers

Commissioning for Better Outcomes

- Literature review
- Interviews key actors
- Development events
- ADASS workshops
- Expert review of draft standards
- Launched at conference
- Testing through peer challenge

Twelve standards

Good commissioning.....

Person centred and outcomes focused

1. Is person centred and focuses on what people say matters most to them
2. Promotes health and wellbeing for all
3. Delivers social value

Good commissioning...

Inclusive

4. Is coproduced with people and their communities
5. Promotes positive engagement with providers
6. Promotes equality

Good commissioning

Well led

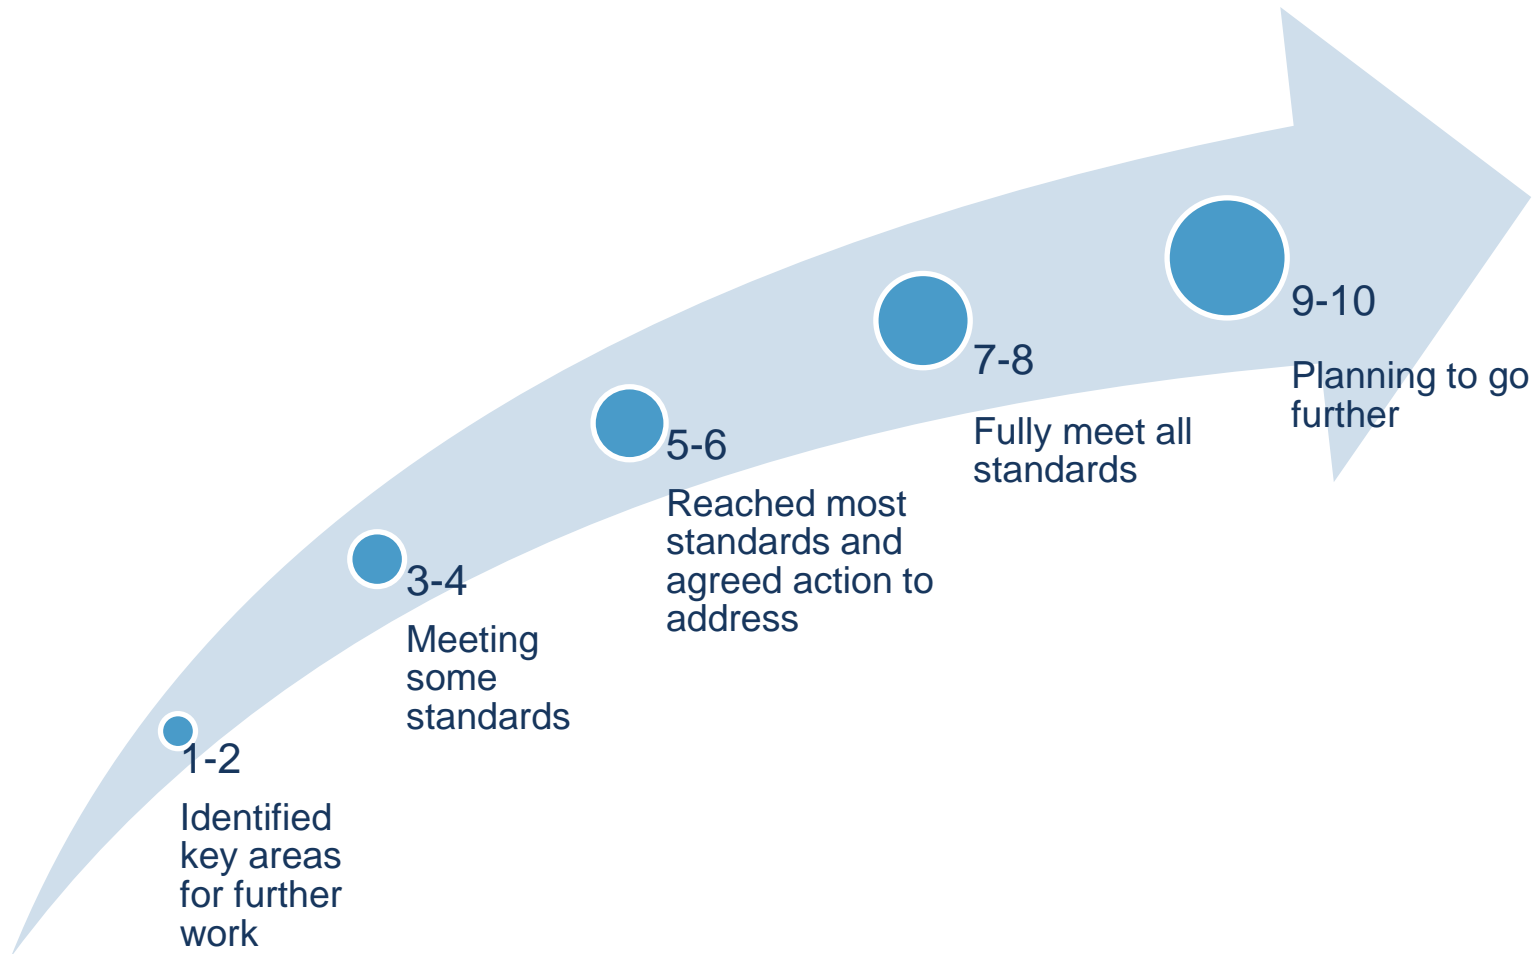

7. Is well led by Local Authorities
8. Demonstrates a whole system approach
9. Uses evidence about what works

Good commissioning is

Sustainable and diverse market

10. Ensures diversity, sustainability and quality of the market
11. Provides value for money
12. Develops the commissioner and provider workforce

Score your progress against each of the 'what good looks like' statements

Purpose of the standards

To support a local dynamic process of continuous improvement, to strengthen and innovate to achieve improved outcomes for people using social care, their carers, families and communities

Some wicked issues

- Commissioning for outcomes
- Financial pressures
- Personalisation and population based commissioning
- Integrated commissioning
- Co-production – an aspiration but challenging

Using the standards to drive improvement and promote best practice

- LGA peer challenge 'offer' - 3 pilot peer challenges to test the standards on the ground – funded by DH
- TEASC - regional SLI programmes – peer review, promoting /sharing best practice
- At an individual council level – self-assessment tool for all councils and partners

Next steps

- Promote the standards in the sector
- Agree how best to use the standards at a national, regional and local level through sector led improvement
- Ensure providers and service users are integrally involved in putting these tools into practice
- Refine and finalise standards following pilots
